Is Anybody There?

Protest The Hero

Is anybody there?
is anybody listenin?
does anybody care?
can you actually say
that you don't give a shit about your future
and I am scared to think
that the world
has been populated
with dumb fucks and assholes
that don't give a fuck
afraid to stand up and fight back!
whoa oh oh
don't turn your back
your a victim of consequence
whoa oh oh
fight back
start a revolution
whoa oh oh
just close your eyes
and think of no one but yourself
consider someone else
you've got it lodged inside your mind
that everything is happy
and no one has to die
you've got it lodged inside your mind
when everything is fucked up
now everythings not fine
Is anybody there
is anybody listenin
does anybody care
can you actually say

that you don't give a shit about your future
and I can't understand
how the fuck you see so blindly
how can you justify this fucking lack of humanity
those who care just spit out rhetoric
whoa oh oh
don't turn your back

your a victim of consequence
whoa oh oh
fight back
start a revolution
whoa oh oh
just close your eyes
and think of no one but yourself
consider someone else
Who do you think you are?
WHO DO YOU THINK YOU ARE?!
you've got it lodged inside your mind
that everything is happy
and no one has to die
you've got it lodged inside your mind
when everything is fucked up
now everythings not fine
you'd got it lodged..
lodged inside your mind
WHOA OH OH!
