

# The Nomad

## Black Label Society

I've left the past behind  
So much more to see  
Like a feather to the wind  
Wherever it may lead  
Wherever it may lead  
Where I'll never know  
For I can't be tied down  
I can here it call Take me through this world  
Take me through this storm  
No matter where I may be  
My befallen past it walks with me The leaves shall turn and then they fall  
Like the anguish and the joy  
Adrift upon life's sea  
Wherever it may lead  
Wherever it may lead  
Where I'll never know  
For I can't be tied down  
I can here it call Take me through this world  
Take me through this storm  
No matter where I may be  
My befallen past it walks with me Take me through this world  
Take me through this storm  
No matter where I may be  
My befallen past it walks with me  
My befallen past it walks with me Like a feather to the wind
