Crazy

John Butler Trio

Take a look around and what do I see
It looking like the whole world's goin' just a little crazy
And I know it can't be all of them and just not me
So I guess I'm going just a little crazy
Take a look around and what do I see
Far too many people watching their color TV
Well, you might as well hang yourself
Right up from a tree,'cause you be starving your brain
If you're watching too much TV
And all that it's telling you is good is bad
And all that it's telling you is that your happy is sad
And all that it's telling you is that you are to fat
And we are what we are, that's all we are
Take a look around and what do I see
A goddamn government
That couldn't give a fuck about you or me
Can't even get his shit together
Come up with one good policy
A goddamn government
That couldn't give a fuck about you or me
All that they care about it that you pay your tax
And all that they care about is that you pay off your land
And all that they care about is that you obey on command
And we do, and we do, and we're all mad
