Victoria

Copperview

Take your clothes off baby
As you enter the room
Make it slow now honey
Tell me what you want me to doCrawling on the floor on your hands and your knees
Just tell me little baby you got something for me
Please me
Need me
Baby show me what you can do
Yeah it's on
All night long baby
Will get alongTell me how you're feeling
As you're screaming my name
Don't stop now girl
You gonna drive me insaneCrawling on the floor on your hands and your knees
Just tell me little baby you got something for me
Please me
Need me
Baby show me what you can do
Yeah it's on
All night long baby
We gonna get along
Yeah, yeah, yeah, yeah it's on
All night long baby
You turn me onWhere you going baby
Tell me how you do the things you do to me
Where you going baby tell me
Where you going girlYeah it's on
All night long baby
We gonna get along
Yeah, yeah, yeah, yeah it's on
All night long baby
You turn me on
