Life Isn't Short At All

Rebekka Karijord

What to do with all this
time I have been given
all the opportunites?
I want to feel all
I can start all over
pack my belongings and
get on a train go somewhere else
I want to see allBut life isnt short at all
Ill get back on my feet if I fall
If i start looking the world isnt small
Life isnt short at allThe skies have shapes of strange
objects and animals
The sound of the ice melting
on the first day of spring
A pair of brand new red shoes
soaking in the rain
Im perfectly drunk and calm
I want to be right hereCause life isnt short at all...
