

Xerces

Deftones

Universe surrounds, when you're ready
It waits for us to, to leave this earth
Come on, they're calling your name out I don't know, I could stay
Or leave right away
'Cause the comet can take us
All the way through Goodbye, say Heaven
Know no one, Ill be waving
Goodbye, say Heaven
Know no one, Ill be waving, goodbye Reason to see, everything looks the same
I don't know if the change made was great
'Cause the craving remains the same Goodbye, say Heaven
Know no one, Ill be waving
Goodbye, say Heaven
Know no one Ill be waving
(Goodbye)
Ill be waving
Ill be waving (Goodbye)
Ill be waving
Ill be waving (Goodbye)
Ill be waving
Ill be waving
Ill be waving, goodbye
