The End

Pearl Jam

What were all those dreams we shared
those many years ago?
What were all those plans we made now
left beside the road?
Behind us in the road
More than friends, I always pledged
cause friends they come and go
People change, as does everything
I wanted to grow old
I just want to grow old
Slide up next to me
I'm just a human being
I will take the blame
But just the same
this is not me
You see?
Believe...
I'm better than this
Don't leave me so cold
I'm buried beneath the stones
I just want to hold on
I know I'm worth your love

Enough...
I don't think
there's such a thing
It's my fault now
Having caught a sickness in my bones
How it pains to leave you here
With the kids on your own
Just don't let me go
Help me see myself
cause I can no longer tell
Looking out from the inside
of the bottom of a well
It's hell...
I yell...
But no one hears before I disappear
whisper in my ear

Give me something to echo
in my unknown future's ear
My dear...
The end
comes near...
I'm here...
But not much longer.
