

Next In Line

Meese

You do so typical
I took you for original
Like all other ones
Like every other hit and run
How does your Hollywood
Acting like royalty would
Come and pack em in
You pack em in yeah yeah
Stop and rewind
Now I know what im leaving behind
And you'll always be the next in line
Make a scene
Make a scream
Like your loosing your mind
And you'll always be the next in line
She likes the sound of it
I think there's something wrong with it
I told you what you need
I told you everything
Stop and rewind
Now I know what I'm leaving behind
And you'll always be the next in line
Make a scene
Make a scream
Like your loosing your mind
And you'll always be the next in line
Now you know your the one that I'm leaving behind
And you'll always be the next in line
Make a scene
Make a scream
Like your loosing your mind
And you'll always be the next in line
Mean what you say kid
Before you waste it
Slam on your breaks now
Before the breakdown
You so much older now
Your holding out, your holding out
So come on back come in
You're back come in yeah yeah
Stop and rewind
Now i know what I'm leaving behind
And you'll always be the next in line
Make a scene
Make a scream
Like your loosing your mind
And you'll always be the next in line
And you'll always be the next in line
