

Psychosexy

[Sinisstar](#)

I am future shock
You reap what you sew
And then you get out the motherfucker
Got a problem with God
Set to destruct
Then you sellout, you true believer Won't you please set me on fire?
I am your secret desire
You're down on your luck
Flash in the panic
You can't get enough
Yeah sucker But is the future to blame for what you never became?
