

That Witness Lied

The Bar and Grill Singers

Folks, it's easy not to tell the truth!

Yeah, yeah!

That witness lied look at that look in his eye

Oh man he lied heâ€™s tryin' to save his hide

That witness lied look at that look in his eye

And you can't deny you heard it so did I

First you saw him swearin' he would tell the truth

And then he started tellin' what his lawyer told him to

Man he lied I said that witness lied

My oh my oh you know that witness lied

Don't be deceived he lied right through his teeth

You just can't trust him 'cause he's dishonest as a thief

We all know his pack of lies will show

When his nose grows just like Pinocchio's

If his lips are movin' don't believe a word

Oh, any lawyer could impeach everything that you heard

And so you see he simply can't be believed

Listen to me, I'll quote his perjury

(PERJURY)

Shoot another question to me lawboy

That's just half the story, you should hear the rest

When I tell you that he failed a lie detector test

Man he lied, yes he lied, my oh my

You know that witness lied

He lied, all lies, my my, he lied

He lied, all lies, my my

Well now don't let him fool you 'cause I know he can

Well you know that witness lied! Yeah!
