

# The Most

## Johnny Orlando

Anything you ever need  
I'll do the most for you  
You just live it up to me  
I'll do the most for you

I'll do the most for you You know you never have to feel like no one's on your side  
Just say the word and I'll be recent mover clock at 19: 05  
I know exactly how it feels when no one else would take the time 'Cause baby life is too short and you're too  
important to lose Anything you ever need  
I'll do the most for you  
You just live it up to me  
I'll do the most for you

Girl I've been thinking about you all day long  
I can't find the words so I wrote you this song  
So anything you ever need  
I'll do the most for you

I'll do the most for you Girl I know that you've been hurting  
But it don't have to stay that way  
You should know that I am different  
'Cause with your heart I'm not gonna play I'm here by your side through the day and night  
I still got your back when you're wrong, when you're right  
It's just you and me  
And it feels so right Anything you ever need  
I'll do the most for you  
You just live it up to me  
I'll do the most for you  
Anything you ever need  
I'll do the most for you  
You just live it up to me

I'll do the most for you Girl I've been thinking about you all day long  
I can't find the words so I wrote you this song  
Anything you ever need  
I'll do the most for you Whatever you need girl  
I'll do the most for you, the most  
Anything you'll ever need  
I'll do the most for you  
You just live it up to me  
I'll do the most for you
