Fun Never Changes

Defmatch

DEFMATCH
â€œfun never changes rapâ€•

Shotgun shotgun gimme the shotgun,
We had to stop in because we heard that you got some,
Ill win it at the arcade,gaming is awesome,
Then amp it at the amphitheater, throw em a hot one,
So refreshing and depressing,
Fun never changes and Iâ€™m going to get mine,
One last time, we will grab the 9,
You can call me king cola, Iâ€™ve never been colder now,
I hold it down in dry rock gulch,
Its high noon for goons when i rock pumps,
Nuclear megatons, move and ill get you some,
Never will surrender, ill kill everybody, everyone,
Are we there yet? I got 2 full clips,
Im gonna cap cappy and bottle.
Suck this!
Which gang will i join to raid your whole clique?
Lets duke it out at nuka town, you donâ€™t wanna miss,
I got a little bit you got a little bit
Put it all together and were gonna get by,
Time of your life, ride or die,
Its a radioactive paradise,
But we stay hoping, all gates open,
Some say its better cause thereâ€™s even less lines,
I want to live a bit you want to live a bit,
We got a little bit of everything here tonight,
I wanna know, if youâ€™ve got anywhere thats better now that you would rather go,
Spend the night, enjoy the show,
Check out these lakes of quantum, you know you want some,
I got to get back, i just came home to kick up some dough,
2 for 1 coupon it shoots neutrons,
Party in the wasteland, getting our groove on,
Then see how its made at the world of refreshment,
They bottled up the joy, you can test it, hectic
Get put on ice, like these delights,
If you donâ€™t turn around and snipe a round tonight,
Keep a lookout for blood worms, careful of a sunburn,

Hunted or the hunter? Yes i brought thunder,
Mechanical issues are a thing of the past,
And they have all been resolved, now were taking your cash,
Remember F.U.N spells fun, come get tons,
But expect punks holding you up and then some,
Were not too worried bout overcrowding,
Or reaching capacity, sales are drowning,
So bring your friends round for a special outing,
No thats not screaming, its just playful shouting,
I got a little bit you got a little bit put it all together and were going to get by,
Time of your life, ride or die,
Its a radioactive paradise,
But we stay hoping, all gates open,
Some say its better cause theres even less lines,
I want to live a bit you want to live a bit,
Weâ€™ve got a little bit of everything here tonight,
I want to know, if youâ€™ve got anywhere thats better now that you would rather go,
Spend the night, enjoy the show,
Check out these lakes of quantum, you know you want some,
I got to get back, i just came home to kick up some dough.
