

Sunshine

Tje Austin

Words & Music : Tje Austin / R. Jones

Who says love is wrong, who says love is right
I think you should stay discover me tonight
Must be a full moon, am I foolishly
Falling into you as you fall into me

Chorus

I can live my whole life in your sunshine
Echoing the way you are
Watching as you fill me up with love, your love
I can live my whole life in your sunshine
Echoing the way you are
Watching as you fill me up with love, your love

Simple as a kiss
Or the slightest touch
It brings me to my knees
Oh I never get enuf
Its written in the stars
Connecting cosmically
I was made for you
You were meant for me

Chorus

I can live my whole life in your sunshine
Echoing the way you are
Watching as you fill me up with love, your love
I can live my whole life in your sunshine
Echoing the way you are
Watching as you fill me up with love, your love

I still will feel your loving when the sun goes down, down, down, down
I'll close my eyes and feel you in my heart
Just stay here in my galaxy to keep me a constant
Spinning around you
And when the morning comes

Chorus

I can live my whole life in your sunshine

Echoing the way you are
Watching as you fill me up with love, your love
I can live my whole life in your sunshine
Echoing the way you are
Watching as you fill me up with love, your
