

# Catch

Allie X

All I needed was the medicine  
And you came knocking like a doctor  
Gave me the pill to take away the poison  
Erase the writing on the wall  
You stuck a needle right into that vein  
You let me take it like a soldier  
Thought for a while I could ignore the pain  
My hands are tied behind my back  
I'm paralyzed, my heart attacks  
It seemed to me you were the one  
Turns out you shot me up for fun  
Thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
Yeah, but you thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
I was devastated by the pain  
But now I couldn't call the doctor  
Gotta stop the forces in my brain  
Gotta read the writing on the wall  
It isn't easy getting in the vein  
When you do it alone  
No one to tighten up the tourniquet  
My hands are tied behind my back  
I'm paralyzed, my heart attacks  
I'm screaming, begging for the one  
That won't just shoot me up for fun  
Thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
Yeah, but you thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
Wait until I catch my  
Wait until I catch my (my breath)  
Wait until I catch my breath  
Wait until I catch my  
Wait until I catch my  
Wait until I catch my (my breath)

Wait until I catch my breath  
You leave me hanging out here for so long  
When will I catch my breath  
You leave me hanging out here for so long  
When will I catch my breath  
Thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
Yeah, but you thought you got away with murder  
Left me at a loss for the words  
Just wait until I catch my breath  
Wait until I catch my breath  
Wait until I catch my  
Wait until I catch my  
Wait until I catch my (my breath)  
Wait until I catch my breath  
Wait until I catch my  
Wait until I catch my  
Wait until I catch my (my breath)  
Wait until I catch my breath
