

Her Room

Anja Garbarek

I am in her room
It's I who live here now
I don't know how I got here
There's this man who comes every night And hour passes
Then i another
Smoking slowly Her death
Was she already dead
When i came ?
I mean enough to bury I am in her room
It's I who live here now
I don't know how I got here
There's this man who comes every night I count my cigarettes
