

Better Days Will Come

Tahiti 80

As I was thinking about the things that you said
I looked up to the sky to see a cloud passing by
There must be something wrong
There must be something wrongAs I was thinking about the things that you said
I looked up to the sky to see a cloud passing by
There must be something wrong
There must be something wrongBetter days will come
Better days will come
(No, you can't always win, I guess you'd rather just wait)
Better days will comeAs I was thinking about the things that you said
I looked up to the sky to see the cloud passing by
There must be something wrong
There must be something wrongBetter days will come
(No, you can't always win, I guess you'd rather just wait)
Better days will come
(No, you can't always win, I guess you'd rather just wait)Better days will come
(No, you can't always win, I guess you'd rather just wait)
Better days will comeThere must be something
There must be something wrongBetter days will come
Better days will now comeBetter days will come
(No, you can't always win, I guess you'd rather just wait)
Better days will come
(No, you can't always win, I guess you'd rather just wait)
Better days will come
(Just wait)
