

Shame On Me

Ryan Cabrera

I know you want to talk
And tell me about your day
But I keep wondering off
Oh how your hair
Falls in front of your face
While you try to keep it up
I've always paid attention to your point of view
But now I want to focus on the rest of you[Chorus]
Shame on me wanting you
The way I fantasize about
What id give, what id do
I just want to work you out
Times like this I'm so glad that you can't read my mind
Shame on me another time Please don't walk away
I'm only drifting 'cause you look so good tonight
Now that we are alone its so hard to listen
You know you got me mesmerized
I've always paid attention to your point if view
But now I want to focus on the rest of you[Chorus]
