

A Lesson Lived Is a Lesson Learned

Hatebreed

Do it

Some scars are meant to be worn with pride

Everyday is knowledge to use in life

A lesson lived is a lesson learned Setbacks used to propel me forward

Misjudgment taken as force to do right

A better outlook, a mindset of power

Each day resolve and reform A lesson lived is a lesson learned

You've got to fend for yourself

A lesson lived is a lesson learned

Everyday is a lesson A lesson lived is a lesson learned

You've got to fend for yourself

A lesson lived is a lesson learned

Everyday is a lesson Said so many things that I wish I could retract

I've got my issues, I've got my demons

Finished what I began and finally saw

It's how you use the knowledge you've been given Stood tall when others would have turned and run

Put my work in when everyone quit

Claw and tear for everything I have

And I've only just began A lesson lived is a lesson learned

You've got to fend for yourself

A lesson lived is a lesson learned

Everyday is a lesson A lesson lived is a lesson learned

You've got to fend for yourself

A lesson lived is a lesson learned

Everyday is a lesson
