

My Girlfriend's Girlfriend

Peter Steele

It's no secret we're close
As sweaty velcro
Like latex, fur and feathers
Stuck together now In their '62 'vette
Sharing one cigarette
In a black light trance then
Go, go dance then
Go, go trance then They keep me warm on cold nights
We must be quite a sight
In our meat triangle
All tangled, wow My girlfriend's girlfriend
She looks like you
My girlfriend's girlfriend
She's my girl too Her and me, and her and she, and me
An uncrowded couple, are we three?
Hey, we don't care what people say
When walking hand in hand down Kings highway
Two for one today My girlfriend's girlfriend
She looks like you
My girlfriend's girlfriend
She's my girl too My girlfriend's girlfriend
She looks like you
My girlfriend's girlfriend
She's my girl
