

Kill Each Other/Live Forever

Scars on Broadway

I am the one that's calling inside of your brain

I am the one that makes you feel all the shame

Never mind my name We don't wanna believe that the world can still move on

We don't wanna believe that the sun can still shine on If we gonna kill each other how we gonna live forever?

If we gonna live forever how we gonna kill each other? I am the one that's calling inside of your brain

I am the one that makes you feel all the shame

Never mind my name We don't wanna believe that the world can still move on

We don't wanna believe that the sun can still shine on If we gonna kill each other how we gonna live forever?

If we gonna live forever how we gonna kill each other?

If we gonna kill each other how we gonna live forever?

If we gonna live forever how we gonna kill each other? We don't wanna believe that the world can still move on

We don't wanna believe that the sun can still shine on

We don't wanna believe that the world can still move on

We don't wanna believe that the sun can still shine on I am the one that's calling inside of your brain
