High Octane Fuel

GBH

I've got a turbocharger on my car
Without that power I wouldn't get farLet me take you back to when power first begun
Rubbing sticks together can't be a lot of funHigh octane fuelI've got fuel injection on my Cadillac
When I push that button, I ain't coming backLet me take you back to when power first begun
Rubbing sticks together can't be a lot of funHigh octane fuelI've got a rocket booster on my saloon
If we waste power, we'll run out soonLet me take you back to when power first begun
Rubbing sticks together can't be a lot of funHigh octane fuelI've got solar panels to keep me warm
And a nuclear warhead to fry you all
