

Somewhere Out There

[Lucy Kaplansky](#)

Somewhere out there in the world tonight
Just out of my reach
I hear your heart beat
It's coming in loud and clear tonight
Pounding in my brain
Calling out your name And in the darkness something binds you to me
So that I can find you
When you want me I will be there waiting on you
Somewhere out there Somewhere out there in your heart tonight
Where I have never gone
You are not alone
It's tearing me apart all right
But darling what can I do
When I'm so far from you And when I lay me down to sleep
My one and only prayer is you'll keep
Safe from harm until I get wherever you are
Somewhere out there
Somewhere out there 2x And if you're sad or if you're lonely
If you're scared or if you're only
Tired of fighting, seeking shelter
Just hold on, I'm somewhere out there
Somewhere out there Somewhere out there in the world tonight
Just out of your reach
You'll hear my heart beat
You'll hear my heart beat
You'll hear my heart beat
