

# Just Seven Numbers (Can Straighten Out My Life)

## Four Tops

Baby, baby, right now  
Just seven numbers  
Can straighten out my life  
But my pride won't let me phone  
Just seven numbers  
Can get me through to you girl  
Then I'll know you're really at home  
You haven't been fair to me  
Playing all that you see  
You say you seen some of the act  
I don't know that you're a comin' back  
If I only knew where you were  
Just seven numbers  
Can straighten out my life  
If my fingers would only turn the dial  
Just seven numbers can make through girl  
Just your hello would make me smile  
I haven't been fair to myself  
I'm tryin' to call somebody else  
But after she said hi  
I hung up the telephone line  
If I only knew where you were  
Just seven numbers  
Can put me straight through to you  
I never knew Baby, wo-o-o  
Just seven numbers  
Can straighten out my life, oh girl  
But my fingers won't turn the dial  
Just seven numbers  
Can put me through to you babe  
Just your hello would make me smile Just seven numbers  
Just seven numbers, seven number Just seven numbers  
Just seven numbers, seven number
