No Doubt

Petra

There are times when you feel like you can't go on
There are times when you feel like giving in
And there are times when you feel like you can't try anymore
There are times of trouble in believing
This test of your faith will last
As long as it takes to pass
Till you have no more doubt you'll endure
And your faith will emerge true and pure
No doubt it'll be alright
With God, it'll work together for good
No doubt in the end it will be understood
No doubt it'll all work out
With faith He can move any mountain for us
No doubt in the power of Jesus
And after all is done we find out
All we really need to have is no doubt
There's a time to take a reckless leap of faith
There's a time to be cautious and to wait
And there's a way of learning from the past
That this time of trouble won't last
And sometimes we want to think we know
The ways He will choose to make us grow
But it's never the way of our choosing
And we can't always see what He's using
There will be winters in the seasons of our soul
With a cold and bitter wind that chills our lives
But our faith can be building a fire
That will warm us till springtime arrives
