

# Cool Love

**Chris Isaak**

Love is a flame  
I just got burned again  
You're always there  
Each time I need a friendCool love, cool love  
I don't know why I didn't never see  
The one who was always right there for me  
Could it be you and I, should give it a try I only knowThat I, I'm never gonna let you down  
No I, I'm never gonna let you down  
Cool love, cool loveIt feels so right being here with you  
Just two old friends but now there's something new  
So easy to talk, just taking a walk with the one I loveAnd I, I'm never gonna let you down  
No I, I'm never gonna let you down  
Cool love, cool loveI was so lost, needed more than a friend  
Love was right there, you saved me againAnd I, I'm never gonna let you down  
No I, I'm never gonna let you down  
Cool love, cool loveLove was so close  
Finally it came to me
