

# A Better Way (Uncut Demo)

## Downhere

I'm not alone, I really believe  
You never go, You never leave  
Here and now, You always stay  
I love you could not be said a better way It's everything You've promised  
There's no greater love than this from prophets until today  
A man laying down His life for His friends  
Your sacrifice has spoken, You gave everything  
And I love you could not be said a better way I am forgiven, I clearly see  
It's why You came to do all you did for me  
Trading earth with heaven, You took my place  
I love you could not be said a better way It's everything You've promised  
There's no greater love than this from prophets until today  
A man laying down His life for His friends  
Your sacrifice has spoken, You gave everything  
And I love you could not be said a better way Because You redeem, I know what's to come  
Everything I could lose here, You've already won  
So You have my surrender with passion obey  
I love you could not be said a better way It's everything You've promised  
There's no greater love than this from prophets until today  
A man laying down His life for His friends  
Your sacrifice has spoken And I love you could not be said  
And I love you could not be said  
And I love you could not be said  
And I love you could not be said a better way
