Alive

Leona Lewis

I breathe, I hear but I don't believe it
My heart it beats but inside I'm freezing
My hands they shake, I've lost all the feeling
Nowhere to take, you say that you're leavingAnd there's no turning back this time
Gotta stay aliveWhere do I go when I'm so alone?
Where do I turn when we weren't so close?
We try not to crash but we still collide
Tears I've cried, I'll survive, I'm aliveI'm stripped, I'm bare, I'm left here with nothing
I hold the wheel, don't know where I'm going
Your face I see in every reflection
No time, no space, I've lost all directionAnd there's no turning back this time
Gotta stay aliveWhere do I go when I'm so alone?
Where do I turn when we weren't so close?
We try not to crash but we still collide
Tears I've cried, I'll survive, I'm aliveI'm gonna get there some way
Through all the tears and the rain
And any road I can take
Just to get me some placeWhere all the scars on my heart
And all the lies in the dark
Disappear in the headlights so bright
Tonight, gonna drive them awayWhere do I go when I'm so alone?
Where do I turn when we weren't so close?
We try not to crash but we still collide
Tears I've cried, I'll survive, I'm alive
I'm alive, I'm alive, I'm alive, I'm alive
