

# Magic Cup

Gregory Porter

I just cant stop thinking about you  
All day long I cant do without you  
Grinding beans and steaming cream  
'Cause youre my magic cup  
Every day in every way  
'Cause youre my magic cup You are a good time  
Make me feel nice  
You are a perfect fix in the morning  
With sugar and spice You give me insight  
Into my mind  
Looking into your black mirror  
Before I pour you inside I just cant stop thinking about you  
All day long I cant do without you  
You give me youth and taste of truth  
'Cause youre my magic cup  
Every day in every way  
'Cause youre my magic cup You are a good time  
Make me feel nice  
You are a perfect fix in the morning  
With sugar and spice You give me insight  
Into my mind  
Looking into your black mirror  
Before I pour you inside I just cant stop thinking about you  
All day long I cant do without you  
Grinding beans and steaming cream  
'Cause youre my magic cup  
Every day in every way  
'Cause youre my magic cup You are a good time  
Make me feel nice  
You are a perfect mix in the morning  
With sugar and spice You give me insight  
Into my mind  
Looking into your black mirror  
Before I pour you inside I just cant stop thinking about you  
All day long I cant do without you  
Grinding beans and steaming cream  
'Cause youre my magic cup  
Every day in every way  
'Cause youre my magic cup You give me youth and taste of truth

'Cause youre my magic cup  
Every day in every way  
'Cause youre my magic cup
