

Alone

Nonso Amadi

You know how it is on a Saturday Night (Yeah)
That's how it's been for me all my life
I'm taking time to make things right
So pardon me I might be drunk tonight (Drunk)
I'm still learning how to shake my waist
â€˜Cos of the parties I have in my place
I mean the cycle starts over again
And everybody's leaving here around 8
Being alone is such a waste of time

So pardon me I might drunk tonight
And I don't know who I'm looking for
Are you the one that I'm looking for?

They say it takes two to make it right
What do I do for me to make you mine?
If you're considering, then take your time
Being alone is such a waste of time
They say it takes two to make it right
What do I do for me to make you mine?
If you're considering, then take your time

Being alone is such a waste of time

Cause I don't wanna be alone
Girl I don't wanna be alone (Yeah, yeah)
I don't wanna be here by myself
So tell somebody that I might need help
Cause I don't wanna be alone

They say it takes two to make it right
What do I do for me to make you mine?
If you're considering,
then take your time
Being alone is such a waste of time
They say it takes two to make it right
What do I do for me to make you mine?
If you're considering, then take your time
Being alone is such a waste of time

Yeah, Yeah.
