

# Lifelines

## Doves

Well I, feels like a place I've never been  
And I, feels like a place I've never seen Oh, somebody's givin' in but I'm not  
Somebody's givin' it but I'm not  
Somebody's givin' it a lifetime  
Somebody threw you a lifeline Somebody wakes to the sun in the sky  
Others are livin' with hate in their eyes Oh, the fires that you made and the earth that you walk  
The ground beneath and the words that you talk  
The fires that we own and the words that we talk  
The ground beneath and the earth that we walk  
All gone And yeah, there are pictures of the sun  
And yeah, just like sketches of the sun  
The colors run Somebody's givin' in but I'm not  
Somebody's givin' up a whole lot  
Somebody's givin' it a long time  
Somebody threw me a lifeline Sometimes it's hard to see things straight  
Tryin' to make sense of a single page  
Sometimes you seem to spend your life tryin'  
But I'm just lookin' for my lifeline The fires that you made and the earth that you walk  
The soil beneath and the words that you talk  
The fires that we own and the words that we talk  
The ground beneath and the earth that we walk  
The earth that we walk, gone, all gone And it feels like a place I've never been
