Fastway

My, my said the beggar man
What you give what you take are two different things
Eat up what you've got
Evil winds that drag your bones to rotEvil winds that'll set, set me freeSuicide of the first division
Found dead with a noose wrapped around your head
No one cared to raise an eye
Don't it make you wanna scream, scream till they cryEvil winds that'll set, set me freePlease brother can you spare me a dime
To buy some bread and a bottle of wine
I'll never ask for anything again
Just help me, help me to surviveEvil winds that'll set, set me freeI said, Please brother can you spare me a dime
To buy some bread and a bottle of wine
I'll never ask for anything again
Just help me make it through theHelp me make it through
Help me make it through
Help me make it through
Make it through the nightHigh tide like a wishing well
The thoughts of Balrog flowing through my head
Please time won't you take me back to the lands and paths
From where I came from where I cameEvil winds that'll set, set me freeHeft
