

Stone (featuring Sebastian Kole)

Alessia Cara

So much on my mind
I think I think too much
Read between these lines
unspoken weight of words
But time comes to rest when you are by my side, it blurs And I will follow where this takes me
And my tomorrows long to be unknown
When all is shaken, be my safety
In a world uncertain, say you'll be my stone Change in every wind
The sands of time don't know our name
Oh, nothing's sure, but surely as we stand
I promise I will stay the same
And I've never seen forever
But I know we'll remain And I will follow where this takes me
And my tomorrows long to be unknown
When all is shaken, be my safety
In a world uncertain, say you'll be my stone
(Ooh-ooh-ooh) Be my stone
In a world uncertain, say you'll be my stone Oh, steady me, be my source of gravity
While my world's unraveling
Say you'll never change, ooh, oh And I will follow where this takes me
And my tomorrows long to be unknown
When all is shaken, be my safety
In a world uncertain, say you'll be my stone
(Ooh-ooh-ooh) Be my stone
In a world uncertain, say you'll be my stone
