

# All Out

## The Business

Its happening all over  
The problems that you see  
Companies striving for profits  
They know that cannot be  
Computers are taking over  
The worlds banking machine  
Where does that leave the workers  
There jobs a has been[Chorus:]All out, all out, all out, redundancy  
All out, all out, all out, no job for mePlease take this offer  
Its one you cant refuse  
Its better than being destitute  
Its a viable abuse  
Who the hells gonna work  
In the coming years from now  
We will all be run by robots  
With no need to wipe their brow[Chorus][Repeat]
