

Everything You Are

Ed Sheeran

I didn't mean to break your heart
I was just lonely
And everybody falls apart sometimes
I know you've found another one
But won't you just hold me tonight
I wish I never called you up
Nobody told me
And they don't know, they don't speak anymore
So take a good look at us
Won't you just hold me tonight
And I would stop trying to fall in love again
And keep it a secret
It never works out anyway
But I am not, anything like a voice
Cause you were the only one for me
Yeah, yeahCause maybe I don't want to lose a lover and friend in one night
If that's right
I shouldn't have f*cked with your mind
And your life too many times
Or maybe I don't want to be lonely
Darling you are my only love
Behind my true loves, everything you areI never meant to sleep around
I was just lonely
You did the same, again, and again
I know
So here's to the both of us
Here's to our story tonight
Oh I would stop trying to fall in love again
And keep it a secret
It never works out anyway
But I am not, anything like a voice
Cause you were the only one for me
YeahCause maybe I don't want to lose a lover and friend in one night
If that's right
I shouldn't have f*cked with your mind
And your life too many times
Or maybe I don't want to be lonely
Darling you are my only love
Behind my true loves, everything you areWhen I see my future

It is with you
We'll get there
I want my children to be with you togetherCause maybe I don't want to lose a lover and friend in one night
If that's right
I shouldn't have f*cked with your mind
And your life too many times
Or maybe I don't want to be lonely
Darling you are my only love
Behind my true loves, everything you are
Behind my true loves, everything you are
Behind my true loves, everything you are
