

# My Melody

Nico & Vinz

My melody ?  
My melody ?  
My melody ?  
My melody ?Will you care for me, care for me?  
When nobody will me see me?  
Will you care for me, care for me?  
When nobody will me see me?  
Will you cover me gently?  
Let me sleep in your house tonight  
You know, you know, you knowBy the depth of the well  
And the trunk of the tree  
That's where I waited  
So that you could comfort me, comfort me  
Cause I needed to talk, you just walked  
But what's so wrong about it?  
My fam done kicked me out  
Society, I'm torn about it  
And you talk to me  
Like you know where I've been  
Talkin' 'bout, "That's real life,"  
I'm talkin' real dear, so what we talkin' 'bout?  
I can't inhale the air in the world, polluted with ignorance  
These lungs don't wanna read no more  
That's all I'm able to talk about  
If these my last words  
I would sing this  
And if I have to go  
Play this at my funeral  
So I'ma let the music play for every day that you're afraid  
We all cry but your tears ain't the same, I can see that  
Now we can't kill what is hard, ill and vicious  
But improve these statistics, enlighten our existence  
Believe that
