

Hide the Dead Girl

Terrorvision

They may be able to pin the tail on the donkey
But they can't get anything to hold us down
She was ducking for apples and we'll stick to that story
We just held her breath for her and sadly she drowned
No body of evidence if you haven't got a body
Proofs in the pudding there's food for thought
We've all got a conscience that makes us feel guilty
And we're sick of feeling guilty when we haven't been caught
Got to stay in one piece and stay out of jail
We've got to hide the dead girl
Got to lose the police who are hot on our trail
We've got to hide the dead girl I'll be a demon as long as I've got my petroleum
Keep me going forward wheels going round
Desperate desperadoes in search of a sanctuary
Staying our innocence 'till otherwise found Got to stay in one piece and stay out of jail
We've got to hide the dead girl And I'm driving and I'm driving fast
I find it exciting yes I find it a blast
