Proved Me Wrong

Slick Shoes

A softer kind of smile
A star that holds your stare
Everything I've ever known
Just blew up in the airDon't you hate it
When every love song makes sense to you?
And time away breaks your heart in two
I really hate it nowThey should have taught us this in school
I really thought I was so cool
You proved me wrong again
You proved me wrong againI can't wait 'til the next time I see you
I can't wait 'til the next time I see youIt's getting hard to sleep at night
I'll pretend that it's alright
It doesn't feel that wayBy now you probably hate this song
It's probably best that it's not long
I guess you proved me wrong
I guess you proved me wrongI can't wait 'til the next time I see you
I can't wait 'til the next time I see youI can't wait 'til the next time I see you
I can't wait 'til the next time I see you
