What If (Acoustic Version)

Jason Chen

Never ever seen somebody like you
Got me mystify, hypnotizes, paralyzed and the way you move
Should be against the rules
'Cause when you look my way
I just lose my coolEven though we're not acquainted
You're way too hard to ignore
Baby it's like our love is faded
For you I will start a war
What if I have the courage to say hello
What if I told you, you are beautiful
What if you felt the same way about me too
And we took a chance on me and you
(Oh what if)Come and see you
I don't know what I should do
Yeah, you're in my mind
All the time I realize
The fire in your eyes
Helps me see the light
And when you pass my way
It's like I'm lost in timeEven though we're not acquainted
You're way too hard to ignore
Baby it's like our love is faded
For you I will start a war
What if I have the courage to say hello
What if I told you, you are beautiful
What if you felt the same way about me too
And we took a chance on me and you
(Oh what if)
