

# Love on the Brain

Noah Guthrie

Baby you go me like oohh  
What you want from me  
And I try to buy your pretty love  
The price to highBaby you got me like ooohhh  
Love when I fall apart  
So you can put me together  
Throw me against the wallBaby you got me like, hhhhiiii, hhhhiiii  
Don't stop loving me  
Just keep loving me  
Just start loving meOohh and babe, fist fighting with fire  
Just to get close to you  
Can we burn something babe  
And I drive for miles  
Just to get a tasteMust be love on the brain  
Got me feeling this way  
It beats me black and blue  
But it hurts me so good  
That I can't get enoughMust be love on the brain  
And it's cursing my name  
No matter what I do  
I can't live without you  
So I can't get enough  
Must be love on the brainAnd you loving me  
Just keeping loving me  
All you gotta do is love me  
You got me aaahhh  
Tired of being played like a violin  
When are you gonna let me in  
Your ever loving heartBaby you got me like, hhhhiiii, hhhhiiii  
Don't stop loving me  
Don't quit loving me  
Just start loving meOohh and babe, fist fighting with fire  
Just to get close to you  
Can we burn something babe  
And I drive for miles  
Just to get a tasteMust be love on the brain  
Got me feeling this way  
It beats me black and blue  
But it hurts me so good

That I can't get enough Must be love on the brain  
And it's cursing my name  
No matter what I do  
I can't live without you  
So I can't get enough  
Must be love on the brain And your loving me  
Just keep loving  
Yeah, your loving me
