

# Without You

Duane Stephenson

I knew this will come..  
Girl believe me  
I knew this day will come on our way..aaah

There you lay in bed looking more beautiful than ever  
Your eyes were all cried up and the memory started to flow  
I always knew that this day was to come but I wasn't prepare  
I looking into your eyes and all I see is pain

Girl I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
But I can't go on without you  
Yes, I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
But I can't go on without you

When you turn your back I was hurted more than ever  
Your bags already pack and you ready to hit the road  
Remembered all that people, we said we won't prove wrong  
They said that we were young and our love will never be strong  
Chorus...

Girl I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
But I can't go on without you  
Yes, I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
But I can't go on without you

Say you gotta be on your way, gotta go you can never stay  
I'll try not to cry wont lay down and die, ill see a brighter daaaaaaaaaaaaaay,,

They way you lay in bed looking more beautiful than ever  
Your eyes were all cried up and the memory started to flow

I always knew that this day would come but I wasn't prepare  
I looking into your eyes and all I saw was pain

Girl I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
But I can't go on without you, I can't live without you  
Yes, I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
but i cant go on without you

Yes, I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
but i cant go on without you

Yes, I knew that love was always a matter of time but I didn't going to mess with your peace and mine  
but i cant go on without you
