

# Moongirl

Stellastarr\*

Outside, there's a spaceship  
Blocks the sun  
Forms a shadow hovering over me  
Yesterday I had missed it  
But today, there's a girl who shows me everything  
I said: ohhh, she was the moment  
I said: ohhh, she was the moment  
I said: yeah, moongirl

Let's surf on the horizon  
To the moon where the world will look much clearer to me  
One day I'll be finished  
But today, there's a girl who shows me everything  
I said: ohhh, she was the moment  
I said: ohhh, she was the moment  
I said: yeah, moongirl
