

rut

Will Haven

Stepping aside to look at what I've made for

Stale flowing, where's my progression?

I'm so quick to motivate

While I falter toward This is my endless struggle to find You can be so bold to let your expression show

While I'm content with habitat

Or will seasons bleed migration This is my endless struggle to find

This is my endless struggle to find Life always seeking for something higher

Why can't it be so simple

As only the strong survive

Strong survive

Strong survive

Survive
