

# Tie the Knot

Jesse McCartney

Well it's about that time when all our friends  
Around us one by one they're stopping their own lives  
And I can see it in your eyes, you want some answers  
Wondering when it's gonna be our time  
Now I ain't never been a guy looking for marriage  
That was something I just wouldn't do  
But lately you've been on my brain, I go insane,  
Thinking about a life without you, I know you, you've been waiting to be taken  
I, I know you, you've been waiting so patiently  
I'm ready, you're ready, we're ready, been ready  
Come on girl let's tie the knot  
I'll never lie, I'll never cheat to carry you between the sheets  
Come on girl let's tie the knot  
And after we say "I do", we'll go wherever we want to  
Drive away, "just married" on the car, yeah  
I'm on my knees, 'cause I believe that you're the one that's right for me  
Come on girl let's tie the knot  
They say the grass is always greener  
Temptation is a killer  
Well girl that's all a lie  
'Cause when we're standing in the mirror,  
There's really nothing clearer than you and I know you, you've been waiting to be taken  
I, I know you, you've been waiting so patiently  
I'm ready, you're ready, we're ready, been ready  
Come on girl let's tie the knot  
I'll never lie, I'll never cheat to carry you between the sheets  
Come on girl let's tie the knot  
And after we say "I do", we'll go wherever we want to  
Drive away, "just married" on the car, yeah  
I'm on my knees, 'cause I believe that you're the one that's right for me  
Come on girl let's tie the knot  
I can picture you, all in white, so go pick up the dress that you like  
I wanna spend the rest of my life  
For me, you're all that I need nothing more than you by my side  
I'm ready, you're ready, we're ready, been ready  
Come on girl let's tie the knot  
I'll never lie, I'll never cheat to carry you between the sheets  
Come on girl let's tie the knot  
And after we say "I do", we'll go wherever we want to

Drive away, "just married" on the car, yeah  
I'm on my knees, 'cause I believe that you're the one that's right for me  
Come on girl let's tie the knot
