

When I Grow Up

Simon Peters

Some folks from time to time, might look at me like im a little strange, while others will just come right out and ask me, why don't I act my age, well I'll admit I'm a little older than I am young, but I don't believe the fun,

should stop at twenty one

When I grow up, I wanna be a kid, I wanna laugh, love, like I always did, theres a million things to be, but just one life to live, so deep down in my heart when I grow up, I wanna be a kid

Well the world is full of doctors, lawyers, middle man and bankers on wall street, but underneath the pinstripe suits they're quarterbacks and cowboy wannabes, we're all ridin through space on a little blue ball, oh I dont wanna miss it why'd I wonder of it all

When I grow up, I wanna be a kid, I wanna laugh, love, like I always did, theres a million things to be, but just one life to live, so deep down in my heart when I grow up, I wanna be a kid

Yeah I bet Jesus smiled, when he said to get to Heaven, you gotta be like a little child

When I grow up, I wanna be a kid, I wanna laugh, love, like I always did, theres a million things to be, but just one life to live, so deep down in my heart when I grow up, I wanna be a kid

(When I grow up)

I wanna be a kid

(When I grow up)

When I grow up

(When I grow up)

If I ever grow up

(When I grow up)
