

I Love Myself And I Wanna Live

The Blackout

You drink, you drink alone
So alone, you're waiting for life to begin
Leave now and I'll follow you home
I wake you up to live how you wanted to live Black eyes and broken bones
'Cause I know you'll spill blood by the end of the day
Dirty kisses and filthy lies
I can't help you're leaving Those were the days
He's gone and blown them away I love myself and I wanna live
I love myself, I love myself
I love myself and I wanna live
I love myself, I love myself You think, you think out loud
Speaking tones you can't speak under your control
With what you've got you should be proud
You taken your life and filled it with hurt Stop now and save us all
'Cause I know you'll be gone by the end of the day
You paint your brain all over the wall
'Cause I'm tired of waiting Those were the days
Now he's blown them away I love myself and I wanna live
I just wanna be awake for your kiss
I love myself and I wanna live
I'll do anything, I'll do anything Just get up, get up, get up, come on get it up
Get up, get up, get up, come on
Don't give up, give up, give up, give up, give it up
Give up, give up, give up
Just get up, get up, get up, come on get it up
Get up, get up, get up I love myself and I wanna live
I love myself and I wanna live
I love myself and I love myself
And I love myself 'cause I love myself
