I Love Myself And I Wanna Live

[The Blackout](#)

You drink, you drink alone
So alone, you're waiting for life to begin
Leave now and I'll follow you home
I wake you up to live how you wanted to liveBlack eyes and broken bones
'Cause I know you'll spill blood by the end of the day
Dirty kisses and filthy lies
I can't help you're leavingThose were the days
He's gone and blown them awayI love myself and I wanna live
I love myself, I love myself
I love myself and I wanna live
I love myself, I love myselfYou think, you think out loud
Speaking tones you can't speak under your control
With what you've got you should be proud
You taken your life and filled it with hurtStop now and save us all
'Cause I know you'll be gone by the end of the day
You paint your brain all over the wall
'Cause I'm tired of waitingThose were the days
Now he's blown them awayI love myself and I wanna live
I just wanna be awake for your kiss
I love myself and I wanna live
I'll do anything, I'll do anythingJust get up, get up, get up, come on get it up
Get up, get up, get up, come on
Don't give up, give up, give up, give up, give it up
Give up, give up, give up
Just get up, get up, get up, come on get it up
Get up, get up, get upI love myself and I wanna live
I love myself and I wanna live
I love myself and I love myself
And I love myself 'cause I love myself
