

Citizenship

Yvette LeWinter

Citizenship

I care about my country, I care about my world
I care about my freedom, Iâ€™TMll never be derailed
I know I must defend it, and pledge I always will
I care about my country, I care about my world

To be a good citizen I must know my history
I must know that, men have died to give me liberty
Iâ€™TMll always believe in freedom, no matter what the cost
Iâ€™TMll always believe in truth and, Iâ€™TMll suffer all thatâ€™TMs lost

I care about my country, I care about my world
I care about my freedom, Iâ€™TMll never be derailed
I know I must defend it, and pledge I always will
I care about my country, I care about my world

To be a good citizen I must do the best I can
I must remember to value every woman child and man
Iâ€™TMll treat, my neighbor, family and friend
With love, care and, respect till the end

I care about my country, I care about my world
I care about my freedom, Iâ€™TMll never be derailed
I know I must defend it, and pledge I always will
I care about my country, I care about my world

What, we stand for is truly the best weâ€™TMve got
No other philosophy comes close to what weâ€™TMve sought
Remember the Bill of Rights and the Constitution too
They were written as the best that humankind can do

I care about my country, I care about my world
I care about my freedom, Iâ€™TMll never be derailed
I know I must defend it, and pledge I always will
I care about my country, I care about my world
I care about my country, I care about my world
