

# The Black Are Rising

## Occult

We summon the almighty clouds of darkness

Now we will rise as never before

We will release the powers inside us

A statue will be left after thisThe black...

The black...

The black...

The black... are... rising!I saw a million dead lying in this field

I saw a million soldiers praising themselves

I saw a thousand people torture the weak

I saw a thousand children hanging on trees

I saw rivers containing blood and flesh

I saw houses burning down the ground

I saw bodies bursting out of granets

I saw babies smashed to the wall

This is war!
