## Camel

Sleepless nights, restless days  
Memories of her gentle ways  
Love locked out, look for a home  
A place to find a shelter from the storm  
She said, "You are the air I breathe  
The life I love, the dream I weave"  
Without a word, with just a touch  
Now I realize, you meant so much  
Been awake so long  
I feel like I belong with the rain  
Mornin' light appears  
The feelin' of the night remains  
Somewhere in between  
The waking and the dream  
Feel you close to me
