

# Time Was

## Canned Heat

Time was when we got along  
Time was when we got along  
It's too bad, that the feeling's gone  
Time was when we could agree  
Time was when we could agree  
That time's gone, now you find fault with me I've got time, things will work out fine  
Trouble will not wreck my life  
Trouble will not wreck my life  
Someday you'll like, what I'm putting down
